CSE351: Analysis and Design of Algorithms

(Semester-I-2020-21)

Grading

Grading component	#	% per unit	%
Homework	5	5%	20% (best 4 out of 5)
Quiz	5	5%	20% (best 4 out of 5)
Minor	1	20%	20%
Final	1	35%	35%
Comprehension quiz	See below	See below	5%

- *Comprehension quizzes are online quizzes conducted through **canvas** that students are supposed to take for better understanding of the material.*
- *Students are supposed to complete at least 80% of these comprehension quizzes.*

Logistics

Grading component	Comments
Homework	• Can be done in groups of size at most 3. • Submissions to be made over Gradescope. Please avoid missing deadlines. • We will prefer if you submit typed solutions. Latex source files will be provided.
Quiz	• Conducted using **online** Gradescope feature. Solutions are typed. It will help to know latex. • We may create multiple versions of the quiz and you will be told your version before the start of the quiz. • Request for clarifications using private posts on piazza.
Final and Minor	• Conducted in the similar manner as quiz.
Comprehension quiz	• One quiz per lecture component. There may be around 20-25 such quiz. • We prefer if you take the quiz soon after the lecture component has been completed. However, we have a flexible deadline. You can finish these quizzes anytime before 4th January. • You are allowed multiple attempts.

Important points

- Please register on Piazza (no code required) and gradescope (**9Z7E3D**).

- Tutorial sections will be held from next week.
